

Ibis Business Solutions

Ibis Business Solutions is a dynamic and client focussed company that works with clients to implement effective and sustainable solutions to improve risk management, safety and business performance. For example:

- Improved OHS performance, including reduction in injury rates and injury severity;
- Improved risk management which translates to bottom line benefits;
- Better process safety performance and reduced risk;
- Reduced workers compensation claims;
- Improved workforce commitment;
- Behavioural change;
- Real integration of OHS systems with other business systems;
- Compliance with contemporary standards; and
- Legal compliance.

Our experience includes industries such as manufacturing, oil and gas, chemicals, mining and mineral processing, engineering and construction, power generation, telecommunications, transport / logistics, electrical, water and gas utilities, healthcare, agriculture, maritime, and government.

Our multi-disciplined team of professional consultants understand risk management and the nature and imperatives of commercial business management. This appreciation of business gives us an advantage in understanding the issues facing our

clients, and enables us to offer practical advice and services, which lead to rapid bottom line benefit to our clients.

Our process is simple - we listen to our clients to understand their specific needs and organisational context so that we can help them develop solutions which are sustainable and resilient in the real world of business.

Specific areas of our consultants' competence include:

- **Safety and risk management systems evaluation, development and implementation**
- **Leadership and Behavioural Safety**
- **Nationally recognised training – Cert IV in Work Health & Safety**
- **Process Safety and Risk**
- **Hazard Study and Risk Assessment facilitation and training**
- **Safety in Design**
- **Project Risk Management**
- **Contractor Management Systems**
- **Training and Development**
- **Auditing**

Further information can be found in our detailed brochures on these services.
